

Section II (Remarks)

Amendment of Claims 51, 71, 73, 74, 75 and 76

Claims 51, 71, 73, 74, 75 and 76 have been amended herein to address the changes made in the Examiner's Amendment accompanying the September 17, 2009 Notice of Allowance, so that such claims are placed in grammatically correct form.

Claim 51 in the Examiner's Amendment was revised to recite "a multiplicity of the LED/phosphor assembly" in place of the prior recital of "a multiplicity of LED/phosphor assemblies".

The prior recital in claim 51 is grammatically correct and is fully consistent with the recital in claim 70 (from which claim 51 depends) of "at least one LED/phosphor assembly".

Likewise, the blanket replacement of the recital of "LED/phosphor assemblies" with "the LED/phosphor assembly" in the further claims 71, 73, 74, 75 and 76 has introduced ungrammatical terminology in these claims, since the Examiner's Amendment:

- in claim 71 has resulted in a recital of "an array of the LED/phosphor assembly";
- in claim 73 has resulted in a recital of "a plurality of the LED/phosphor assembly";
- in claim 74 has resulted in a recital of "wherein individual the LED/phosphor assembly";
- in claim 75 has resulted in a recital of "the LED/phosphor assembly in said regular pattern array are controlled"; and
- in claim 76 has resulted in a recital of "wherein all the LED/phosphor assembly in said regular pattern array are arranged".

It therefore is requested that this Amendment Under 37 CFR 1.312 be entered to address the Examiner's Amendment, and to restore the claims to their prior grammatical form.

Respectfully submitted,

/steven j. hultquist/
